An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lemaire on 11/23/04.

The application has been amended as follows:

In claim 1:

In line 5 after "battery," add --- wherein the depositing of the second layer further includes supplying an amount of ion-assist energy to the second layer to aid in crystalline layer formation, while controlling a stoichiometry of the crystalline layer without substantially heating the substrate and wherein the battery is a thin-film lithium battery

In line 5 after "battery;" delete "and"

In line 7 (as a separate new line) add

--- attaching an integrate circuit to the substrate; and

Operatively coupling the integrated circuit to charge the battery using current from the photo voltaic cell,

Wherein either the first or the second layer forms a cathode layer of the battery, wherein the battery includes the cathode layer, an anode layer, and an electrolyte layer located between and electrically isolating the anode layer from the cathode layer, wherein the anode or the cathode or both include an intercalation material. ----

Reasons for Allowance:

The following is an examiner's statement of reasons for allowance: prior art neither teach nor suggest teaching depositing a second layer onto the a first layer, wherein the depositing of the second layer further includes supplying an amount of ion-assist energy to the second layer to aid in crystalline layer formation, while controlling a stoichiometry of the crystalline layer without substantially heating the substrate and wherein the battery is a thin-film lithium battery; attaching an integrate circuit to the substrate; and operatively coupling the integrated circuit to charge the battery using current from the photovoltaic cell.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
